

(definitely the last version, this time for real)

STATUS: ALSO NOT FINAL

A short and painful history of this document:

thesis.docx

thesis_final.docx

thesis_final_v2.docx

thesis_FINAL_real.docx

thesis_FINAL_v12_USE_THIS_ONE.docx <-- you are here

thesis_FINAL_v12_USE_THIS_ONE_actually.docx

Lesson eventually learned: version control exists. I now use git. Mostly.

(For the commits that never happened, see DO_NOT_OPEN.txt.)
